

What to do?

To face the most felt and urgent problems one has to enquire, gain conscience of the situation and act rapidly. Together it's possible.

- 1) **Adhere to the Republic of the Earth.** The application can be made by filling the special form published on www.asmad.org. Who isn't an Internet user can ask a user to send him the form. The adherence to the Republic of the Earth allows taking part to the international Assembly election. By Adhering to the Republic of the Earth one also asks to be assigned one hundred Dhana (www.dhana.org). The adoption of Dhana involves its acceptance as payment and the possibility to carry out payments in Dhana: in physical, electronic (www.gandhana.org) and/or telematic currency (www.akadhana.org) and/or also through Kyberpay (www.kyberpay.org).
- 2) **Elect the republic of the Earth International Assembly.** The regulations for the elections are published among the documents on www.asmd.org. An informal election trial of the International assembly was already made between the 15th and 21st of December 2006. The valid and official election will take place after the adherence to the Republic of the Earth by at least three billion people, i.e. the majority of the planet inhabitants with at least 16 year of age. The form for the pointing out of candidacies is published on www.asmad.org.
- 3) **Appointing the Republic of the Earth Government.** According to art. 10 the Constitution and the Regulations for the election of the Government (published among the documents on www.asmad.org), the Republic of the Earth Government is elected by the International Assembly.
- 4) **Establish universal peace.** With a special law (see the Regulations for the formation of laws published among the documents on www.asmad.org), the International Assembly establishes the conditions for universal peace and charges the Republic of the Government to apply it. The authoritativeness of the International Assembly is higher than the one of any other political national or international body, because it represents the majority of the planet inhabitants over sixteen years of age (more than three billion people out of five).
- 5) **Formation of the new human community order.** Elect and activate the bodies provided by the new human community order published on www.nextgov.org, arrange for all powers in contrast with the rules of these bodies to be removed from national states constitutions and for all boundaries between the states to be eliminated.
- 6) **Carry out the Holos Global System initiatives** (www.hgsp.org).
- 7) **Nourish a planetary fund** (www.planetfund.org) applying the principal according to which each one gives what he can in order to have what he needs.
- 8) **Activate Balaloka, the Republic of the Earth security force** www.balaloka.org in order to make the rules be observed in and among the communities.
